

## Manufacturing in Kaunas, Lithuania Facility at Taikos 151

15 years of manufacturing professional electronics for demanding customers have given us unique experience in manufacturing. Our skilled personnel employed in production, engineering, logistics, purchasing and other support functions are involved in the manufacturing of complex electronic products for professional customers for the industrial, telecom, energy, offshore/marine, defence and medical segments.

The focus is on PCBA, test, box-build assembly and cable harnessing. The UAB Kitron organisation and activities have ISO 9001:2008, ISO13458:2003, IRIS rev.2, ISO 14001:2004 certifications. FDA listed and QSR compliant.
