

## Manufacturing in Johnstown, Pennsylvania, USA

From October 2010 we started up our new manufacturing site at the Jari Business Development Center, which is located in Johnstown, Pennsylvania, USA. Our skilled personnel working in production, technical engineering, supply chain and other functions have experience from electronic manufacturing in the US or from European sister companies.

Focus is on complex products with high manufacturing/assembly requirements in mechanics, electronics and professional function testing.

Our aim is to support the customer both from Europe and the US by providing

- right quality
- best value
- optimized costs
- on time delivery

*A leading international supplier of electronic manufacturing services – providing the entire value chain.*

*Serving professional customers mainly with high complexity manufacturing.*

*Focusing on the following market segments:*

- Data/Telecoms
- Defence/Aerospace
- Energy
- Industry
- Medical equipment
- Offshore/Marine

Total area: 2000 m<sup>2</sup> (21,500 sq ft)

Location: Johnstown, Pennsylvania, USA
