

## Kitron Sourcing

Kitron's sourcing and logistics competence provides Kitron's customers with a broad base of competent suppliers. From mechanical components to microprocessors, Kitron will find the right supplier for every complex component, assuring quality and lowest total cost. Our selected suppliers in Scandinavia, Eastern Europe and China provide Kitron the ability to match our customers requirements to a supplier with the right capabilities to succeed.

Kitron's sourcing considers these important factors when sourcing complex components:

- Quality
- Capability
- Delivery precision
- Lowest total cost

We use our suppliers to achieve continuous cost reduction, in addition to making Kitron competitive from our first offer.
