

China Sourcing

Our well staffed Sourcing Organization is located in one of China's largest port areas, Ningbo. Kitron has been established in Ningbo since 2007, and we have developed a team of local suppliers that meet our strict requirements of:

- Western management style and quality systems
- High level of technical competence and manufacturing capabilities
- Delivery precision and high level of export experience
- English language ability

Kitron manages its Chinese supply base through its Chinese staff of supplier managers, on-site QA experts, and a full support staff. Kitron knows the cost competitive advantage of Asia sourcing, with world class quality that can benefit our customers. Either as part of our own products or directly as a service to our customers.

A leading international supplier of electronic manufacturing services – providing the entire value chain.

Serving professional customers mainly with high complexity manufacturing.

Focusing on the following market segments:

- Data/Telecoms
- Defence/Aerospace
- Energy
- Industry
- Medical equipment
- Offshore/Marine
