

Kitron Logistics services

Kitron's Logistic system manages the flow of components from suppliers in Asia, North America and Europe, to our manufacturing facilities, then onward to our customers. We manage sourcing, manufacturing and delivery to customers all around the world.

Kitron manages the logistics flow to give our customers a cost effective advantage by meeting demanding logistics timetables, factoring in safety margins and reducing the amount of capital investment in inventories.

Kitron's competitive advantages are our detailed forecast capabilities and our close relationships with the world's foremost electronic component suppliers and logistics providers.

A leading international supplier of electronic manufacturing services – providing the entire value chain.

Serving professional customers mainly with high complexity manufacturing.

Focusing on the following market segments:

- Data/Telecoms
- Defence/Aerospace
- Energy
- Industry
- Medical equipment
- Offshore/Marine

We manage logistics throughout the entire value chain from our suppliers to our customers and in some cases our customer's end customer ... 24 hours a day, 7 days a week.
